

BIG AIR

CEILING FAN

UP TO **25% SAVING ON HEATING AND COOLING COSTS!**

BIG AIR features

- The most efficient fan on the market with an unmatched airflow per consumed watt
- Very light 6 blade fan without maintenance
- Reliable mounting system completely isolates the fan unit from the facility structure. The system prevents any vibrations or movement from the fan being transferred back to the structure
- Extremely quiet even at high speeds
- The SEW Eurodrive gearmotor technology is a modular system complete with an energy efficient motor and an adapted gear unit optimally matched to each other.

Without couplings and transmission elements, this high quality system represents the optimum drive solution

- Perfectly reversible for year round use
- Anti-corrosion anodized aluminum aerodynamic blades
- Easy variable remote with reversible function included
- Covers a very large area
- Lifetime warranty blades and 12 year warranty on other components

- Maintenance-free SEW Eurodrive gearmotor manufactured according to ISO 9002 standard, approved UL/CSA/CE and 12 year warranty
